

## **Attachment 15.1 – IRWM Plan – Reduce Delta Water Dependence**

### **Madera Region – IRWM Implementation Grant Application**

This section is not applicable to the Madera Region. Technically the Madera regional boundaries include the Columbia Canal Company, which does receive Delta Water as an Exchange Contractor. However the Columbia Canal Company explicitly does not consider itself part of the Madera Region. Neither it nor any other Exchange Contractor has been involved in the development of the Madera IRWMP or is expected to be involved in its implementation. Therefore the Madera IRWMP cannot be said to reduce dependence on Delta water supplies.
